

Cards received into the bureau			
Month	Rec'd 2005	Rec'd 2006	Rec'd 2007
January		542	244
February		511	204
March	879	564	79
April	669	343	501
May	796	744	359
June	1773	883	919
July	728	438	534
August	762	561	396
September	721	400	220
October	644	372	217
November	591	939	159
December	508	316	191

Cards sent out from the bureau			
Month	Sent 2005	Sent 2006	Sent 2007
January		569	283
February		490	124
March	589	523	203
April	801	310	233
May	769	697	401
June	1903	890	1264
July	725	419	200
August	612	499	307
September	710	419	512
October	697	304	181
November	170	1303	200
December	1051	0	182

Year	Received	Sent
2005	8071	8027
2006	6613	6423
2007	4023	4090

Totals for year 2005 do not include the months of January and February so averaging out this would boost received and sent cards totals by approx 1600??

Maybe a clearer picture of the effect of band conditions as we continue the fall to the bottom of the sun cycle?
